

Appeal

**for the demonstration in front of the Palace of Nations (Geneva)
for the headquarters of the International Labour Organization (ILO)
In solidarity with the Iranian workers**

As is known, the 105th Annual Conference of the International Labour Organization (ILO) will take place from May 31 to June 11, 2016, in Geneva.

The Iranian teachers, journalists and all the workers inside population by the Islamic capitalist government in a serious and fatal situation. The work inside the population, journalists, teachers' representatives and representatives of the labor unions are suppressed, and were in some cases sentenced to the longest prison sentence and have lost their lives or were executed in prison. Not only the international conventions of labor rights in Iran are not respected and being implemented, but it is ruled by the changing workplace laws and the corresponding lack of labor rights of the workers. Due to making's benefits for domestic and foreign capitalists who can, they use cheap labor. Under these conditions, the funds of the Social Insurance Institution were robbed and was forced into bankruptcy. The funds of the Social Insurance Institution were fed with money in the work force.

The workers' wages are sometimes not paid. There are the so-called "white", temporary employment contracts that can be terminated at any time and without reason by the employer. In these temporary contracts, wages are often up to a quarter below the minimum wage. The migrant workers do not have equal rights. The number of working children assumes a catastrophic dimension and increases the number constantly. We see gender discrimination and inequality of rights between women and men. Under such circumstances, take the appointed officials and the security agents of the Islamic Republic, which dominates Iran, this year, as well as last year, as the Iranian workers' representatives participated in the annual conference of the International Labour Organization.

We invite all free men, labor unions, workers' representative organizations, defenders of workers' rights, refugee rights activists, democratic organizations, left and progressive organizations in order to protest against the presence of the anti-workers' representatives of the Islamic Republic and national and international investors their accomplices **on Monday 6 June at 11 O'clock** to participate front the Palace of Nations in Geneva and to support the needs and the struggles of Iranian workers.
